

## **RPNM Statement on First GOP Presidential Primary Debate**

**Albuquerque, August 23**— The Republican Party of New Mexico Chairman and former Congressman, Steve Pearce issued the following statement in response to the first GOP presidential primary debate that aired tonight:

*“Tonight, a diverse field of qualified Republican Presidential candidates offered solutions that will certainly get America back on the right track.*

*While each candidate varied in their approach, any of them would be a better option than another term of the Biden administration.*

*President Biden has proven to be a dishonest, incompetent, crooked, and ultimately absent president.*

*The fact remains Biden has failed, and Americans deserve better.*

*In 2024, Republicans will win back the presidency, change the negative direction of the United States, and give hard-working Americans the bright future they deserve.”*
