FOG offers Bootcamp Training

As part of our educational efforts, FOG will host a Bootcamp training session on March 26th at 10 a.m. to acquaint the public with the Inspection of Public Records Act and the Open Meetings Act.

The session is free, online and take about one-and one-half hours to complete. Each participant leaves with an understanding of the basics of open meetings, what is and is not a public record, and exemptions to the transparency laws. FOG provides information defining what is a public record, how to access information and compliance.

To learn more about FOG's Bootcamp training, please visit nmfog.org. To register send an email to info@nmfog.org.
